

BISHOP McCABE DEAD

Methodist Divine Succumbs to Stroke of Apoplexy.

HAD ENVIABLE WAR RECORD

Preacher Was Known Throughout the Country as "Chaplain"—He Was Chancellor of the American University at Washington in 1902. On His Way Home When Stricken.

New York, Dec. 19.—Bishop Charles C. McCabe, known better as "Chaplain" McCabe, died early today in the New York Hospital from apoplexy, with which he was stricken while passing through the city December 11, while on his way to Philadelphia. Mrs. McCabe and the bishop's niece, who had been with him since he was stricken, were at the bedside when the noted divine passed away.

The night before he was stricken Bishop McCabe had delivered a lecture, "The Sunny Side of Life in Liberty Prison," at Torrington, Conn. Accompanied by Dr. George P. Mains, publishing agent of the Methodist Church, the bishop had reached the West Twenty-third street terminal of the Pennsylvania Railroad, and was about to step upon a ferryboat when he staggered and fell unconscious. He was carried into the ferry house, and later was removed to the New York Hospital, where he received treatment as a private patient.

Was Born in Ohio.

Bishop McCabe was born at Athens, Ohio, October 11, 1832. He entered the Ohio conference of the Methodist Church in 1850, and two years later became chaplain of the 123d Ohio Infantry. He was captured at Winchester, and spent four months in Libby prison.

After the war he became pastor of a church in Portsmouth, Ohio, and later was associated with the Board of Church Extension. For more than thirty years he was popularly known as "Chaplain" McCabe, and held a high position in the church. He was made bishop in 1896.

Bishop McCabe was chosen chancellor of the American University at Washington in 1902.

LAND ORDER MODIFIED.

Patents May Be Issued for All but the Coal Tracts.

President Roosevelt has modified his order withdrawing from all forms of entry under the land laws coal lands covering an area of more than 60,000 acres.

The attention of the President was directed to the fact that some of the land was up by his order was more valuable for agricultural and other purposes than for coal mining. He has, therefore, directed that where it is shown that a given tract is not particularly valuable for coal it may be patented under the homestead, desert, or other laws, and other acts governing the disposal of the public domain.

However, under another order issued by the President, every entry in the public domain must be personally examined by a special agent of the department prior to the issuance of the patent.
